FROSTY FACTS

Okay, admit it. We really don't hate winter as much as we say we do. We all complain about it, but the truth is - at the very least - we do find some parts of it enjoyable. Seriously, don't we secretly find pride in the fact that WE can survive a Northern winter? We are a tough and resilient group that feels like we have been initiated into a highly respected club.

Estimated attendance for the 2016 Frostival was 3,261

So, what if we wanted to add members to this elite club? What else could we do to embrace winter? To show the world that winter is an exhilarating season to experience, create memories and develop stories of survival? A story like, "I did yoga in the snow when it was 20 below!"

We decided that we need to keep pace with our grandparents who had to 'walk uphill, both ways, in the snowstorm just to get to school.'

We decided that we need to keep pace with our grandparents who had to 'walk uphill, both ways, in the snowstorm just to get to school.' We need to create memories to tell our future generations. So why not golf or play softball in the snow?

Let's have more winter fun - socialize not just on the patios of summer, but on the ice of winter too. Let's have a weekend of games and activities during the deepest, darkest part of winter - the weekend between the NFL Conference Championships and the Super Bowl.

We call it Frostival. It's a celebration of winter that happens in one of the coolest places around. You're invited. So, grab your friends, bring your spirit of adventure (and maybe some mittens) and join us.
